## Introductory Course in Orthomolecular Medicine

October 25th - October 27th

Hilton, Sibiu

### Discover the Benefits of Orthomolecular Medicine!

The chronicity of diseases governs our daily practice, and the increasing expectations of patients demand a new therapeutic approach. It is essential to adapt and enhance our perspectives. Orthomolecular Medicine represents an ideal connection with traditional medicine. We will show you how individualized therapy with micronutrients is achieved. By adjusting the concentrations of substances already present normally in the human body, both prevention and new therapeutic concepts for treating many conditions are facilitated. This therapeutic method can be learned by physicians from all specialties.

We invite you to explore together the benefits and innovations in the field of orthomolecular medicine!

#### Our special speakers:

**Prof. Dr. Harald Stossier**, Past-President of the International Society of Functional Myodiagnosics and of the Ärzteplattform, will share his knowledge and vast experience.

**Dr. Georg Stossier**, President of the "Ärzteplattform"

**Date:** October 25th - October 27th  
**Language** course in English  
**Seminar hours:** Friday: 06:00 p.m. – 07:30 p.m.  
Saturday: 09:00 a.m. – 05:30 p.m.  
Sunday: 09:00 a.m. – 12:30 p.m

**Seminar fee:** Early Bird price € 299.- (food and beverage included)  
From September 27th, the price will be € 349.-

**Location:** Hotel Hilton Sibiu  
Str. Padurea Dumbrava, Nr 1 Ro- 550399 Sibiu  
Telefon:+40 269 505 600 Mail: info.sibiu@hilton.com  
A room contingent will be set up under the keyword "OM \_ Sibiu"

**Registrations Link:** [Introductory Course in Orthomolecular Medicine - Ärzteplattform \(dieplattform.info\)](https://www.aerzteplattform.info/orthomolecular-medicine)

## These themes can serve as a basis for planning:

### Introduction and Fundamentals of Orthomolecular Medicine:

Definitions, History, Basic Principles, and Scientific Foundations.

### Nutrition and Micronutrients

The Role of Macronutrients and Micronutrients in Health, especially Carbohydrate and Protein Metabolism, and their Impact on Allergies.

### Laboratory Investigations

Which laboratory tests are relevant for assessing nutrient status and how to interpret results.

### Therapeutic Blockades

Obstacles in implementing orthomolecular therapeutic approaches and how to overcome them.

### Relevant Practical Aspects of Orthomolecular Medicine

Practical applications, dosage recommendations, nutrient combination possibilities, and their importance for health.

### Practice Management

Organization of patient treatments, legal aspects, billing methods, and how to increase appreciation for orthomolecular medicine in practice.

### Further information

Adina Gröbminger +43664 883 86 388 Mail:

[info@pascoe.at](mailto:info@pascoe.at).

A Certificate of Participation is issued.

If desired, a starter kit infusion box for 10 applications from [LimaMed](https://www.limamed.com) is also available.
